U. S. TO SERVE NOTICE ON TURKS TO CEASE WHOLESALE MASSACRES

Washington, Oct. 5.—The Turkish government will be formally notified that unless the massacres of Armenians cease, friendly relations between the American people and the people of Turkey will be threatened. Instructions to that effect had gone today to Ambassador Morgenthau at Constantinople for presentation to the foreign office. Officials made it plain,

however, that the message did not threaten a rupture in the diplomatic relations between the two countries. The Ambassador's instructions are merely to inform Turkey that the American people already are so stirred by the reported massacres that a continuance of them will result in a break in the friendly relations between the two peoples.

"WETS" AND "DRYS" BATTLE TO DRAW

The temperance and the license forces fought to a draw yesterday with the exception that Branford, the only town to have local option in its voting districts, was unanimously wet at the close of voting yesterday. Stony Creek which was no license last year becoming license this year.

Perhaps the surprise to the license forces came in the dry vote of Griswold, which includes the borough of Jewett City and in the no license vote in Sprague, both towns being generally regarded as license territory.

On the other hand, the city of Bristol and the town of Stonington went all license with the exception of considerable vigor. All the larger towns which voted yesterday remained in the license column and with the exception of the changes in New London county, the license vote to the temperance element is greater than that to the license element. The table includes:

Bridgeport Jitney Operator Hurt In Crash With Trolley

(Special to The Farmer.)
Norwalk, Oct. 5.—A jitney driven by Frank Weager, who says he lives in Bridgeport was struck by a trolley car at 11 o'clock Sunday night on South street near Fairfield avenue. The rear of the automobile was smashed and the right rear wheel was knocked off.

By the force of the collision Weager was thrown with violence to one side of the automobile and against the door of the machine. Dr. R. M. English was notified and went to the scene of the accident, but when he arrived Weager was not to be found, having been taken in a passing automobile to the Hotel Green. There an examination was made of him, and today X-ray photographs will be taken of his body to see if there are any broken ribs.

Weager said this morning that he was driving his automobile close to the trolley tracks when the accident occurred but not on the tracks. He said that he did not have time to get out of the way before the trolley car was on him.

It was with difficulty that the first apparatus, responding to an alarm from box 315, Fairfield avenue and Water street, located the blaze, as the greatest excitement shown was among the spectators who were drawn to the scene by the arrival of the many engines required to go to a fire call in the shopping district.

A line of chemical hose was used to extinguish the fire, but even with this suggestion of dire possibilities and the scurrying about of many firemen, the patrons did not leave until their meals were consumed.

No. 1 Hook and Ladder on the road to the fire reached West and Fairfield avenues, when its tractor mechanism went wrong. The heavy ladder truck became stalled and resisted all efforts on the part of the driver and department mechanics to move it, for the course of nearly half an hour.
